Fly Me to the Moon

Congratulations, you have been hired by the intergalactic travel agency! Your first assignment is to create a travel video for one of the many beautiful sites for our solar system. You will be working in groups of 3-4 people and each group will be assigned one of the many tourist attractions in our area. It is your job to create a 2-5 minute video showing the wondrous sites and sounds of your tourist attraction.

Each video must include the following information:

1) The diameter of your planet, moon, or sun
2) The distance from earth and direction from earth
3) How long will it take to get there
4) How long will it take to travel around the sun one revolution
5) If I wanted to see sunset to sunset, how many earth days or hours would that be
6) The number of moons (if applicable)
7) A general description of your tourist attraction (range of temperatures, atmosphere, color, rings, topographic features, etc)
8) What should tourists pack
9) Pictures of your tourist attraction

Everyone in the group needs to have a speaking role in the movie.

- turn in a script and storyboard as rough draft
